

Industry Leading Warranty

All A.P.A. Industries products are covered by an industry-leading 24 month unlimited mileage warranty against defects in materials and workmanship. All warranty returns are carefully scrutinized to determine the cause of failure so corrections and improvements can be made.

At A.P.A., quality is an ongoing pursuit that never ends.

We have also recently introduced our ÜRO Premium line, which uses upgraded materials and/or designs to outlast their OEM counterparts. This new product line features an unmatched Limited Lifetime Warranty.

The A.P.A. Industries product line offers you the peace of mind that your company is offering the best parts to your customers, and is getting the best value in the industry. This warranty is valid only on parts installed by qualified personnel and in the application for which they are intended. Parts that are altered, abused, or subjected to arduous use may be excluded from warranty coverage.
