

Limited Warranty Policy

HEAVY DUTY CLUTCHES

Warranty coverage begins on the date of your customer's purchase and continues for two full years.

This Warranty will cover the product for an unlimited amount of miles during the two-year term.

Warranty coverage is for complete IATCO clutch assemblies and does not include or apply these same terms for individual loose components or clutch parts purchased separately.

Each warranty claim is examined on a case by case basis by the IATCO Warranty Department. Each determination is based on an evaluation which can include photos or IATCO may request that the clutch be returned for inspection and testing.
