

## Silicone Spray Lubricant

Safety Data Sheet

according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012. Date of issue: 01/06/2016 Revision date: 01/06/2016 Version: 1.0

### **GHS-US** labelling

This product is a consumer product and is labeled in accordance with the US Consumer Product Safety Commission regulations which take precedence over OSHA Hazard Communication labeling. The actual container label will not include the label elements below. The labeling below applies to industrial/professional products.

Hazard pictograms (GHS-US)

: |

: Extremely flammable aerosol. Contains gas under pressure; may explode if heated. May cause drowsiness or dizziness. May be fatal if swallowed and enters airways.

: Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even afteruse. Avoid breathing dust/fume/gas/mist/vapours/spray. Use only outdoors or in a well-ventilated area. If swallowed: immediately call a poison center or doctor/physician. Do NOT induce vomiting. If inhaled: Remove person to fresh air and keep comfortable for breathing. Calla poison center or doctor if you feel unwell. Store in a well-ventilated place. Store locked up. Do not expose to temperatures exceeding 50 °C/122 °F. Dispose of contents and container in accordance with all local, regional, national and internationalregulations.

#### 2.3. Other hazards

Signal word (GHS-US)

Hazard statements (GHS-US)

Precautionary statements (GHS-US)

No additional information available

## SECTION 3: Composition/information on ingredients

### Not applicable

#### 3.2. Mixture

## Safety Data Sheet

according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012.

| SECTION 4: First aid measures |                                |                  |  |
|-------------------------------|--------------------------------|------------------|--|
| 4.1. Desc                     | cription of first aid measures |                  |  |
| First-aid measu               | ures after inhalation          |                  | ing is difficult, remove victim to fresh air and keep at rest in a position comfortable for g. Get medical advice/attention if you feel unwell.                            |
| First-aid measu               | ures after skin contact        |                  | of contact, immediately flush skin with plenty of water. Call a physician if irritation s and persists.  |
| First-aid measu               | ures after eye contact         |                  | of contact, immediately flush eyes with plenty of water for at least 15 minutes. If easy to<br>ove contact lenses, if worn. If irritation persists, get medical attention. |
| First-aid meas                | ures after ingestion           |                  | wed, do NOT induce vomiting unless directed to do so by medical personnel. Never give<br>by mouth to an unconscious person. Get immediate medical advice/attention.        |
| 4.2. Mos                      | t important symptoms and effec | both acu         | te and delayed   |
| Symptoms/inju                 | ries after inhalation          | Vapours          | may cause drowsiness and dizziness. May cause respiratory tract irritation.  |
| Symptoms/inju                 | ries after skin contact        | May cau<br>skin. | e skin irritation. Symptoms may include redness, drying, defatting and cracking of the   |
| Symptoms/inju                 | ries after eye contact         |                  | se eye irritation. Symptoms may include discomfort or pain, excess blinking and tear on, with possible redness and swelling.   |
| Symptoms/inju                 | ries after ingestion           |                  | atal if swallowed and enters airways. May cause stomach distress, nausea or vomiting.<br>duct may be aspirated into the lungs and cause chemical pneumonitis.              |

### 4.3. Indication of any immediate medical attention and special treatment needed

Symptoms may not appear immediately. In case of accident or if you feel unwell, seek medical advice immediately (show the label or SDS where possible).

| SECTION 5: Firefighting measures          |  |  |  |
|---|--|--|--|
| 5.1. Extinguishing media                  |  |  |  |
| Suitable extinguishing media              | : Carbon dioxide, dry chemical, halons, foam.  |  |  |
| Unsuitable extinguishing media            | : None known.  |  |  |
| 5.2. Special hazards arising from the sub | ostance or mixture   |  |  |
| Fire hazard                               | : Products of combustion may include, and are not limited to: oxides of carbon. Extremely flammable aerosol.       |  |  |
| Explosion hazard                          | : Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries.  |  |  |
| 5.3. Advice for firefighters              |  |  |  |
| Firefighting instructions                 | : Cool closed containers exposed to fire with water.   |  |  |
| Protection during firefighting            | : Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA). |  |  |

| SECTION 6: Accidental release measures |   |   |
|--|---|---|
| 6.1.                                   | Personal precautions, protective eq         | uipment and emergency procedures  |
| 6.1.1.                                 | For non-emergency personnel                 |   |
| Protectiv                              | ve equipment                                | : Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.  |
| 6.1.2.                                 | For emergency responders                    |   |
| No addit                               | ional information available                 |   |
| 6.2.                                   | Methods and material for containme          | ent and cleaning up   |
| For conta                              | ainment                                     | : Eliminate sources of ignition. Contain and/or absorb spill with inert material (e.g. sand, vermiculite), then place in a suitable container. Do not flush to sewer or allow to enter waterways. Use appropriate Personal Protective Equipment(PPE). |
| Methods                                | for cleaning up                             | : Scoop up material and place in a disposal container. Vapours may be heavier than air and may travel along the ground to a distant ignition source and flash back. Provide ventilation.  |
| 6.3.                                   | Reference to other sections                 |   |
| See sect                               | tion 8 for further information on protectiv | e clothing and equipment and section 13 for advice on waste disposal.   |
| SECTI                                  | ON 7. Handling and storage                  |   |

| SECTION 7: Handling and storage    |  |
|------------------------------------|--|
| 7.1. Precautions for safe handling |  |
| Precautions for safe handling      | : Avoid contact with skin and eyes. Do not swallow. Avoid breathing gas, fumes, vapour or spray.<br>When using do not eat, drink or smoke. Do not spray on an open flame or other ignition source.<br>Obtain special instructions before use. Do not handle until all safety precautions have been read<br>and understood. Use only outdoors or in a well-ventilated area. Keep away from sources of<br>ignition No smoking. Pressurized container: Do not pierce or burn, even after use. |
| Hygiene measures                   | : Wash hands before eating, drinking, or smoking. Launder contaminated clothing before reuse.  |
|                                    |  |

## Safety Data Sheet

according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012.

| 7.2.    | Conditions for safe stor age, including any incompatibilities |   |
|---------|---|---|
| Techni  | cal measures  | : Proper grounding procedures to avoid static electricity should be followed.   |
| Storage | e conditions  | : Keep locked up and out of reach of children. Do not expose to temperatures exceeding 50°C/<br>122°F. Store away from direct sunlight or other heat sources. Store in a dry place. |
| Storage | e area  | : Store in a well-ventilated place.   |
| 7.3.    | Specific end use(s)   |   |

Not available.

#### SECTION 8: Exposure controls/personal protection 8.1. **Control parameters**

| Petroleum distillates, hydrotreated light(64742-47-8) |   |  |  |
|---|---|--|--|
| USA ACGIH   | ACGIH TWA (mg/m³)   | 200 mg/m <sup>3</sup>  |  |
| USA OSHA  | OSHA PEL (TWA) (ppm)  | 100 ppm  |  |
| 8.2. Exposure controls                                |   | -<br>-   |  |
| Appropriate engineering controls                      | : Use ventilation adequate to keep expo<br>recommended exposure limits. | sures (airborne levels of dust, fume, vapor, etc.) below   |  |
| Hand protection                                       | : Wear chemically resistant protective g                                | loves.   |  |
| Eye protection  | : Safety glasses or goggles are recomn                                  | nended when using product.   |  |
| Skin and body protection                              | : Wear suitable protective clothing.                                    |  |  |
| Respiratory protection                                | exposure limits may be exceeded. Re                                     | nmended in poorly ventilated areas or when permissible<br>espirator selection must be based on known or anticipated<br>oduct and the safe working limits of the selected respirator. |  |
| Environmental exposure controls                       | : Maintain levels below Community env                                   | ironmental protection thresholds.  |  |
| Other information                                     |   | erial is handled, processed or stored. Wash hands carefull<br>ording to established industrial hygiene and safety  |  |

| 9.1. Information on basic physical and c   | hemical properties        |
|--|---------------------------|
| Physical state                             | : Gas/Pressurized Liquid. |
| Appearance                                 | : Clear liquid.           |
| Colour                                     | : Clear.                  |
| Odour                                      | : Mild aliphatic.         |
| Odour threshold                            | : No data available.      |
| рН   | : No data available.      |
| Relative evaporation rate (butylacetate=1) | : >1(NBA=1)               |
| Melting point                              | : No data available.      |
| Freezing point                             | : No data available.      |
| Boiling point                              | : 182 °C / 360 °F         |
| Flash point                                | : 54 °C / 130 °F TCC      |
| Self ignition temperature                  | : No data available.      |
| Decomposition temperature                  | : No data available.      |
| Flammability (solid, gas)                  | : Flammable Aerosol.      |
| Vapour pressure                            | : No data available.      |
| Relative vapour density at 20 °C           | : No data available.      |
| Relative density                           | : 0.81                    |
| Solubility                                 | : Negligible.             |
| Log Pow                                    | : No data available.      |
| Log Kow                                    | : No data available.      |
| Viscosity, kinematic                       | : No data available.      |
| Viscosity, dynamic                         | : No data available.      |
| Explosive properties                       | : No data available.      |
| Oxidising properties                       | : No data available.      |
| Explosive limits                           | : No data available.      |
| 9.2. Other information                     |                           |

Flame Projection = none; Heat of Combustion = 43.5kJ/g

Safety Data Sheet according to the Hazard Communication Standard (CFR29 1910.1200) HazCom 2012.

| SECTION 10: Stability and reactivity                            |  |  |
|---|--|--|
| 10.1. Reactivity  |  |  |
| No dangerous reaction known under conditions of normal use.     |  |  |
| 10.2. Chemical stability  |  |  |
| Stable under normal storage conditions. Extreme<br>Do not burn. | ely flammable aerosol. Contents under pressure. Container may explode if heated. Do not puncture.      |  |
| 10.3. Possibility of hazardous reactions                        |  |  |
| No dangerous reaction known under conditions o                  | of normal use.   |  |
| 10.4. Conditions to avoid                                       |  |  |
| Heat. Incompatible materials. Sources ofignition                |  |  |
| 10.5. Incompatible materials                                    |  |  |
| Strong oxidizing agents. Strong reducing agents                 | .Water.  |  |
| 10.6. Hazardous decomposition products                          |  |  |
| May include, and are not limited to: oxides of car              |  |  |
|   |  |  |
| SECTION 11: Toxicological informat                              | lon  |  |
| 11.1. Information on toxicological effects                      |  |  |
| Acute toxicity  | : Based on available data, the classification criteria are not met.                                    |  |
| Petroleum distillates, hydrotreated light(647                   |  |  |
| LD50 oral rat   | > 5000 mg/kg   |  |
| LD50 dermal rabbit  | > 2000 mg/kg   |  |
