---

Schaeffler Group USA Inc. (“Schaeffler”) warrants that its products are free from defects in both workmanship and materials. NAPA Premium Bearings and Seals are warranted for a limited period of 12 months or 12,000 miles (19,312 kilometers) from the date of installation (whichever occurs first), and for light duty hub units: a limited period of 36 months or 45,000 miles (72,420 kilometers), whichever is the first to occur. Valid proof of purchase date/mileage required.

Proper selection of the products listed for sale in this catalog is essential to minimize the risk of any seal, bearing or other product failure. Such failures can result in property damage or severe personal injury to operators of machinery, vehicles or to others. You must carefully evaluate the particular application on or into which you intend to install the products. Products in this catalog require installation by an experienced professional mechanic or qualified maintenance professional. This warranty does not cover failure or malfunctions resulting from use for high performance or racing purposes, accidents, improper application or installation, modification, alteration, improper servicing, tampering, normal wear and tear, or abuse. This warranty is extended only to the owner of the vehicle on which the Schaeffler product is installed, for as long as that person owns the vehicle, and is not transferable.

Schaeffler reserves the right to inspect any products in question and to make a judgment on the warranty claim. Product returned for a warranty claim must be returned to the NAPA Auto Parts store from which it was purchased, accompanied by a completed NAPA Alleged Defective Merchandise Tag. Submit all pertinent paperwork, including copies of the purchase receipt, repair orders, pictures (if applicable) and all paper relating to the warranty claim.
